Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

In addition to the teachings of the claims 1, 10, and 20 as a whole, the closest prior art of record failed to teach or suggest, wherein the correction is based on the following equation:

"setting a function which represents a relation between color signals of target colors that change from white to black and a total use amount of the color material signals and in which a change in the total use amount of the color material signals of the input color signal is continuous with a change in the color signals of the target colors that change from white to black, wherein the function is set based on a color signal of the target

Art Unit: 2625

colors corresponding to a color represented by the input color signal and a total use amount of the color material signals of the target colors;

calculating the total use amount of the color material signals corresponding to the input color signal by using the set function; and

determining the combination of color material signals corresponding to the input color signal in the plurality of color material signals based on the calculated total use amount of the color material signals”

Therefore, claims 3-9, 21 and 22 are allowable for depending on claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
